2026 Subject Index

Title	Page
A multiplanar tomographic modeling–based comparison of coracoid process transfer techniques for anterior shoulder instability	49
A rare case of lipoma in the big toe: a case report	25
Age-dependent outcomes of secondary surgical and complementary rehabilitation interventions in children with brachial plexus birth injury: a one-year follow-up study	1
An investigation of the relationship between quadriceps femoris and hamstring muscle strength and balance in individuals with pes planus	54
Association between bone mineral density and clinical-demographic characteristics in patients with post-stroke hemiplegia	34
Behavioral and psychosocial correlates of multisite musculoskeletal symptoms in university students: green-space use, physical activity, and perceived stress	92
Beyond pain: sleep quality impairment in lumbosacral radiculopathy	83
Bilateral femoral avascular necrosis in a 28-year-old male: a case report	22
Clinical differences between patients with and without electrophysiological evidence of carpal tunnel syndrome	40
Commentary on the "Comparison of the effectiveness of medium- and low-intensity extracorporeal shock wave therapy in patients with plantar fasciitis"	47
Comparison of ChatGPT-5.2 and DeepSeek-V3.2 responses to frequently asked patient questions about hallux valgus surgery	101
Comparison of the effectiveness of medium- and low-intensity ESWT in patients with plantar fasciitis	8
Delayed cage retropulsion 15 years after posterior lumbar interbody fusion: a case report	44
Differential diagnosis and management of cartilage-derived tumors in the upper extremity: a focus on osteochondroma and bizarre parosteal osteochondromatous proliferation	28
From cortex to quadriceps: understanding and treating arthrogenic muscle inhibition (AMI) after ACL injury	60
Gene therapy: molecular foundations, therapeutic strategies, and emerging applications in dentistry and orthodontics	78
Investigation of the effect of fibromyalgia frequency on quality of life, daily living activities, disease perception, and clinical parameters in patients with chronic kidney failure undergoing dialysis treatment	16
Investigation of the effect of neck pain accompanying chronic temporomandibular joint pain on pain severity and pain catastrophizing	87
Objectively measured physical activity after anterior cruciate ligament reconstruction: evidence from adult populations and critical gaps in pediatric patients	72
Unilateral foot drop following bariatric surgery: a case report	106
