Dear readers,

We are presenting the first issue of the Journal of Orthopedic Research and Rehabilitation in its 3rd year, meticulously prepared as always, for your appreciation and evaluation.

As an indicator of the academic quality of our journal, as we emphasize in almost every issue, our efforts to be included in qualified academic indexes continue.

Last year, we had four issues with 20 articles. These articles consisted of research articles, case studies and compilations. Most importantly, various branches of healthcare services contributed to the journal.

Therefore, we are very honored to share with you the information that we have started to see the beautiful results of our work that we have been continuing devotedly for almost three years.

As it is known, our journal has international indexes and we hope to be accepted into the TR Index database in the coming processes. Our authors, our valuable referees and our esteemed journal managers who never hesitate to provide the necessary support to the editorial group have a great share in this success.

As a result, we plan to see higher quality and more diverse studies in our magazine this year, as we do every year.

Best regards

Ayşe Gülşen DOĞAN

Editor-in-Chief

ORIGINAL ARTICLES

The effect of early mobilization on complications after chronic subdural hematoma surgery 1-4
Kılınç MC, Mete EB.
